Come Join Us!!!

We are the Northeast Rockbusters Chapter of the Historical Construction Equipment Association and we cordially invite you to join us. We meet several times each year, usually at a member's home or shop. By moving around New England we can see what our fellow members have for "toys" as well as their everyday equipment. You will receive *Rockbuster News*, our chapter newsletter which announces where the next meeting will be held, what our members are up to, and articles of historical interest. We also publish classified ads free to members and an annual schedule of events listing tractor and truck shows of interest to our members.

Meetings are usually held on a Sunday with a "show and tell" session with photo albums, old literature, toys and other items of interest. Technical problems and questions about where to find obsolete machines or parts have been answered at our meetings. The best part is the people you meet!!

There are no requirements to own or operate equipment to join us. All you need is your interest. Our dues are \$20.00 per calendar year. Simply mail this page with payment made out to "Northeast Rockbusters" to the address listed above.

For you to be a member of the Northeast Rockbusters Chapter, HCEA bylaws require that you also be an HCEA member. Membership in HCEA brings you the magazine "*Equipment Echoes*", which is published quarterly and entitles you to attend the HCEA International Convention, a show like you've never seen!! Also due to insurance regulations, you must be an HCEA member to operate equipment at these great shows. Displays don't just park, they are out digging and working. Hear the sounds, see the sights, smell the smells with fellow old iron enthusiasts. HCEA dues are \$35.00 per year and can be together with the Rockbuster Chapter dues.

Thank you!! We hope you'll enjoy having fun with us!!
